

Hubert De Backer

Challenging the
limits of plastic

Equine

HDB also specialises in the production of both standard and tailor-made oral paste syringes.

These syringes have a wide nozzle, making them exceptionally well-suited for the oral administration of gels, creams and vitamin pastes to horses and sheep.

Our paste syringes consist of four components: barrel, cap, plunger and dosing ring.

Standard dosing volumes: 5.5 ml – 60 ml

VETERINARY
oral paste syringes

Hubert De Backer

Oral Paste Syringes

Features

- ▶ From 5.5 ml up to 60 ml
- ▶ Medical Grade Materials
- ▶ Variable nozzle opening
