limits of plastic**

## Healthcare Devices

HDB is always up for a challenge!  
That is why we also specialise in  
the development of new concepts  
and tailor-made products.

If you have a brilliant idea for new  
state-of-the-art healthcare devices,  
be sure to contact us!  
Our R&D department will turn  
your idea into real-life concepts.

## Realising your ideas

- ▶ Our R&D team integrates with your specialists to give form to your concepts. Their extensive experience is shared to evolve innovative, technically advanced and commercially realizable products.

The technical advantages achieved by continuous innovation of our customized products are confirmed by their market-leading position.

CAD systems provide 2D and 3D drawings for visualisation, prototyping and mould manufacturing.

- ▶ We turn your idea into our concept. If you want your idea to become reality contact us at [hdb@hdb.be](mailto:hdb@hdb.be) or +32 (0)3 776 34 94 for additional information or samples.
